## ◆ PROFILE

Master 2 Computer Science student specializing in Networking and Distributed Systems at Ferhat Abbas Setif 1 University. Passionate about front-end development, full-stack web development, artificial intelligence, SaaS products and modern web technologies. Focused on building responsive web applications, AI-powered software, desktop applications and practical solutions while continuously improving through complete project work.

## ◆ EDUCATION

- 2026 – Present

○

**Master 2 — Computer Science (Networking and Distributed Systems)**  
Ferhat Abbas Setif 1 University
- 2024 – 2025

○

**Master 1 — Computer Science (Networking and Distributed Systems)**  
Ferhat Abbas Setif 1 University
- 2021 – 2024

○

**Bachelor's Degree — Computer Science**  
Ferhat Abbas Setif 1 University
- 2021

○

**Scientific Baccalaureate**

## ◆ WORK EXPERIENCE

- 2024 – Present

Setif, Algeria

○

**Front-End Developer — Personal Projects**  
Independent Software Development
  - Built responsive web applications using React, Next.js, HTML, CSS and JavaScript
  - Designed modern user interfaces with Tailwind CSS and reusable component patterns
  - Improved responsive layouts, accessibility, loading speed and overall user experience
  - Translated project requirements into clean interfaces and maintainable front-end code
- 2025 – Present

Setif, Algeria

○

**Full-Stack Developer — AI Perfume Recommendation SaaS**  
Personal SaaS Project
  - Designed and developed an AI-powered SaaS platform for perfume shops
  - Built customer questionnaire flows, recommendation logic and QR code kiosk experience
  - Developed admin dashboard features for customers, inventory, analytics and shop operations
  - Worked on multi-tenant architecture, API integration and database-backed product workflows
- 2024 – 2025

Setif, Algeria

○

**Java Desktop Application Developer — University Project**  
Ferhat Abbas Setif 1 University
  - Developed a Java Swing application simulating communication between mobile nodes
  - Implemented networking and distributed systems concepts with animated packet transmission
  - Applied object-oriented programming principles to organize simulation logic and UI behavior
- 2023 – 2024

Sétif

○

**Head Pastry Chef & Multi-role Employee — Tayibat**  
Tea & Oriental Pastry Shop
  - Preparation of oriental pastries (kunafa, bubble waffle, crêpes, cheesecake)
  - Customer service, confectionery sales and personalized gift creation for weddings

◆ PERSONAL PROJECTS

- 01

**Cafena — Coffee Shop & Fast Food QR Ordering SaaS**  
Next.js 15 · React 19 · TypeScript · Supabase (PostgreSQL) · Tailwind CSS
  - Built a multi-tenant ordering platform where customers scan a table QR code to browse the menu and order without installing an app
  - Developed a staff dashboard with POS, live kitchen display, table, station, employee and product management plus sales analytics
  - Implemented real-time order tracking, role-based access control and a super-admin panel for managing multiple shops
- 02

**AI Perfume Recommendation SaaS**  
Next.js · React · Node.js · MongoDB · OpenAI API
  - Built a complete AI-powered SaaS platform for perfume shops with recommendation workflows
  - Created customer questionnaire, QR code kiosk, customer history and admin dashboard modules
  - Implemented inventory management, analytics views and multi-shop architecture
- 03

**Perfume Shop Kiosk**  
Next.js · TypeScript · Tailwind CSS
  - Developed an interactive kiosk interface optimized for tablets and touch screens
  - Delivered AI-generated perfume recommendations through a responsive, modern user experience
- 04

**Interactive Mobile Network Simulation**  
Java · Java Swing
  - Simulated communication between mobile nodes with animated packet transmission
  - Applied networking and distributed systems concepts using an object-oriented architecture
- 05

**Developer Portfolio Website**  
Next.js · React · Tailwind CSS
  - Designed and developed a professional portfolio with responsive pages and modern animations
  - Built a clean interface to showcase projects, technical skills and development focus
- 06

**Front-End Projects Collection**  
React · JavaScript · HTML · CSS
  - Built multiple responsive websites while practicing reusable components and modern UI implementation
  - Improved page performance, layout consistency and front-end development quality

◆ TECHNICAL SKILLS

|           |                                                           |           |                                      |
|-----------|-----------------------------------------------------------|-----------|--------------------------------------|
| FRONTEND  | React.js, HTML5, CSS3, JavaScript                         | BACKEND   | Node.js, PHP                         |
| DATABASES | MongoDB, PostgreSQL, SQL                                  | MOBILE    | Flutter (Dart)                       |
| DESKTOP   | Electron                                                  | LANGUAGES | JavaScript, C++ , Java, Dart, Python |
| OTHER     | Git/GitHub, REST API, SaaS Architecture, Telegram Bot API |           |                                      |
